

Maths Home Learning

Step 9 and Step 10

Inset Puzzles

Show me how to twist and turn the pieces to fit in the puzzle. Let me have a go. Can I find where the pieces go?

Joining objects together

Show me how to join the Lego or stickle bricks together. Let me have a go and work out how the pieces fit together.

Sorting objects into groups identical

You will need two sets of objects that are identical in type. E.G. identical cars and bricks. Place the objects out on the table and model sorting the objects into 2 sets all cars together and all the bricks together. Let me have a go! Encourage me to sort the objects into identical groups. Have a go at 3 sets. Now try sorting by colour into 2 then 3 sets.

Building a Tower

Help me to build a tower using bricks. Can I put one brick on top of the other? How many bricks are in my tower?

Stacking and Nesting cups

Show me how to put the cups inside or on top of each other. Can I work out the order they go in when you give me three at a time?
