

Maths Home Learning

Step 11 and Step 12

Number Songs

Help me to join in with number songs. You can sing these to me or find some on YouTube. Help me to find the numbers 1-3.

Interlocking Jigsaws

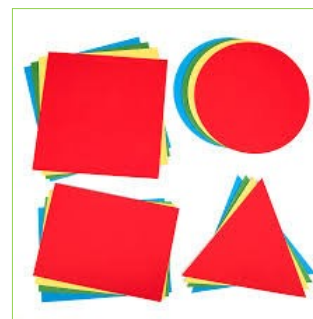

Encourage me to fit puzzle pieces together by twisting and turning them. Give me the puzzle pieces and let me have a go. Once I can complete puzzles with two pieces let me have a go with 4 pieces and 6 pieces that interlock.

Copying repeating patterns

Show me the pattern, this could be a pattern of shapes, colours or objects. Show me how to copy the pattern so it is the same. Start on the left moving towards the right. You could use bricks, sweets, fruit, beads, animals. To start with give me one at a time so I learn how to order the pattern. Then give me a choice of two so I learn to work out which one is next.

Shapes

Help me to find and learn the names of 2D shapes. Can I find a triangle, square, circle and rectangle.

Ordering Numerals

Show me the order of the numbers 1,2,3. Help me to put the numbers in order and name the numbers. Start with 1 and 2 then move onto 1,2,3.
