

Maths Home Learning Step 15 and Step 16

Weight

Help me to learn about weight. Encourage me to pick up objects of different weights. Discuss how they feel such as this tin is heavy but this tin is heavier, this tin is lighter. Ask me to find the heaviest or the lightest. Repeat with other objects. Can I find the heaviest from 3, 4 or 5?

Name	Sides	Corners
triangle	3	3
circle	1	0
square	4	4
rectangle	4	4
pentagon	5	5
hexagon	6	6
oval	1	0
rhombus	4	4
trapezium	4	4

Shapes

Help me to find and learn how many sides 2D shapes have. Model to me counting the sides of a range of 2D shapes. For example:

- Triangle - 3 Sides
- Square - 4 Sides
- Rectangle - 4 Sides

Dice Games

Help me to learn how to play dice games. Some games could be snakes and ladders, bingo, frustration and bus stop. You could even make your own dice game. Take it in turns rolling the dice, identifying the amount of moves and move the correct number of spaces. Can I play simple dice games?

Days of the Week

Help me to learn the days of the week by making songs, using symbols and making links to activities I do on certain days. Can I respond to what day it is?

Numbers

Show me numbers 1-5. Together name the numerals. Place a range of numerals on the table/floor (in a mixed pile) and encourage me to find different numerals. Can I identify numerals 1-5? Repeat with numerals 1-10.
