

Experiences

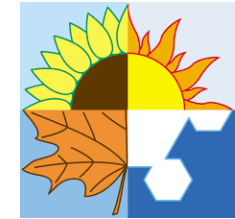

When out or around the home, point out finer parts of plants and living things (leaf, bark, skin, feathers etc.), and ask simple questions e.g. what colour is the petal. Lot's of exploratory messy play, use tools and utensils, and develop an understanding in how to use them properly. Grow things in the garden; observe the results, talk about any changes.

Creative Curriculum

UW Home Learning

Step 13 and 14

The world

Help me to find out through exploring objects. Help me to talk about and ask how things work ; such as : materials and living things.

Help me to experience and talk about the outside environments, weather changes and changes in the environment – this may be activities outside and in different spaces, help with the recycling. Experiment and talk about changes in materials from heating, melting, floating, sinking and shadows.

Activities

Talk about using all of my senses to explore, talk about body parts and what they do .

Let me help you cook and bake - talk about changes, name ingredients and actions, predict change e.g. Flavours, what happens when we put it in the oven/fridge

Use tools and equipment for a purpose e.g. jugs, tweezers, magnifying glasses

People and communities

Help me talk about what my family are doing and my own things, Show photos of me and my family and special events and celebrations. Show me baby photo's and old photo's of my favourite people .

Involve me in family events and celebrations, such as birthdays and visiting special places and/or places of worship. Talk about why it is happening.

Talk to me about past/future events, home and school .
