

Experiences

Make dens with lights and favourite things

Make your own toys or instruments with junk—boxes and paper

help me dig the garden and grow easy things

Lot's of sand, water and messy play

Creative Curriculum

UW Home Learning

Step 6 and Step 7

The world

Allow me to explore and manipulate a wide variety of activities, toys, tools, treasure, explore aspects of objects, materials and living things.

Allow me to experience outside environments, weather changes (wind, rain, snow etc.) change the environment – activities outside and in different spaces

People and communities

I will now show an active interest in what my family are doing and my own things

Involve me in family events and celebrations, such as birthdays and visiting special places and/or places of worship

Talk to me about events, home and school

Show my photos of me and my family and special events and celebrations

Senses

Allow me to use all of my senses to explore, I could wriggle my toes in warm grass

Let me help you cook and bake (and taste)

Play me your favourite music and dance with me

Make playdough, add colour, smells, objects

Suggested Objects and materials:

Topic based treasure baskets with some tools and equipment.

Look at animals and minibeasts Yes—show me that spider!

Recycled boxes and plastic bottles, materials

*I am able to manipulate and explore materials, notice the results of my actions and show an interest in events and people
